

DigEplan: Comparing Plans/Documents

15 Steps

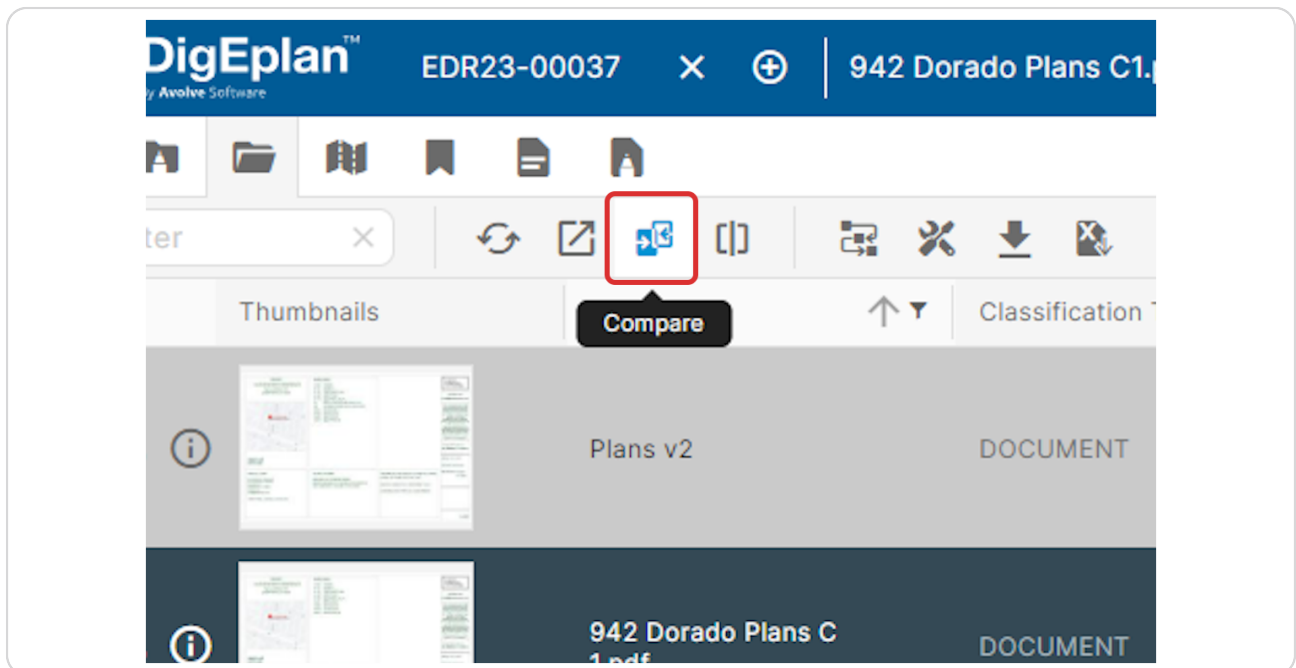

STEP 1

In the documents tab select the 2 documents to compare

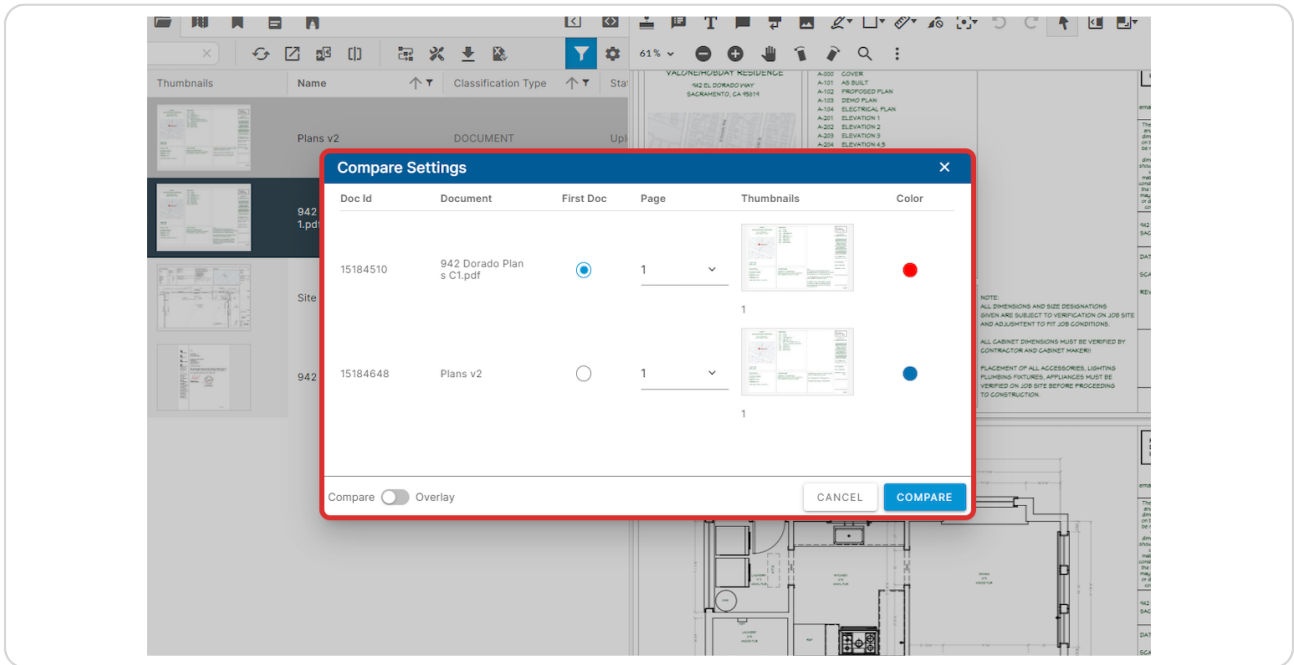

STEP 2

Click on Compare

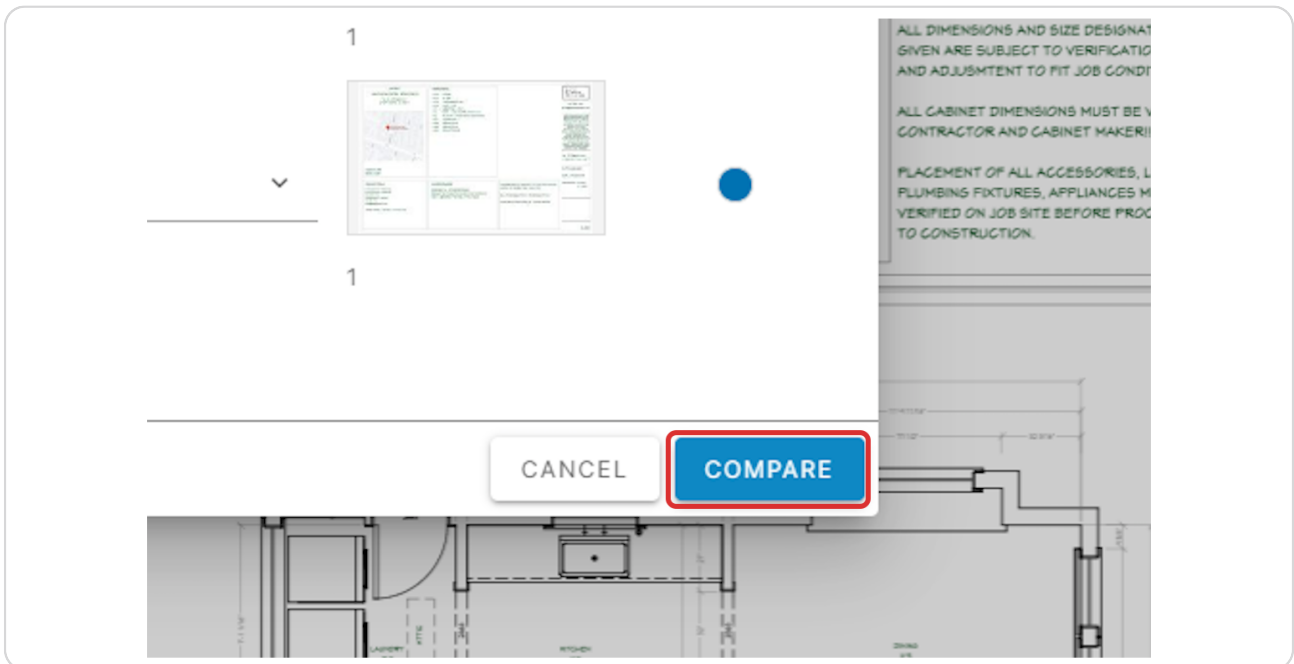

STEP 3

Optional: Adjust the order and color of documents

STEP 4

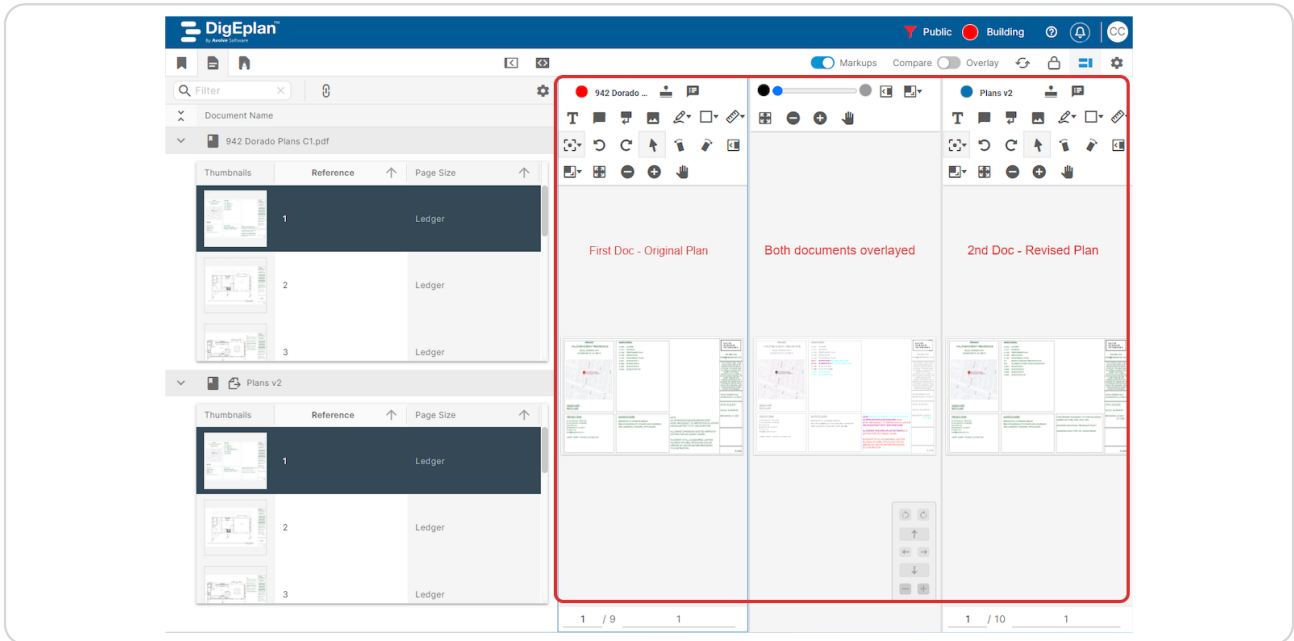

Click on COMPARE

STEP 5

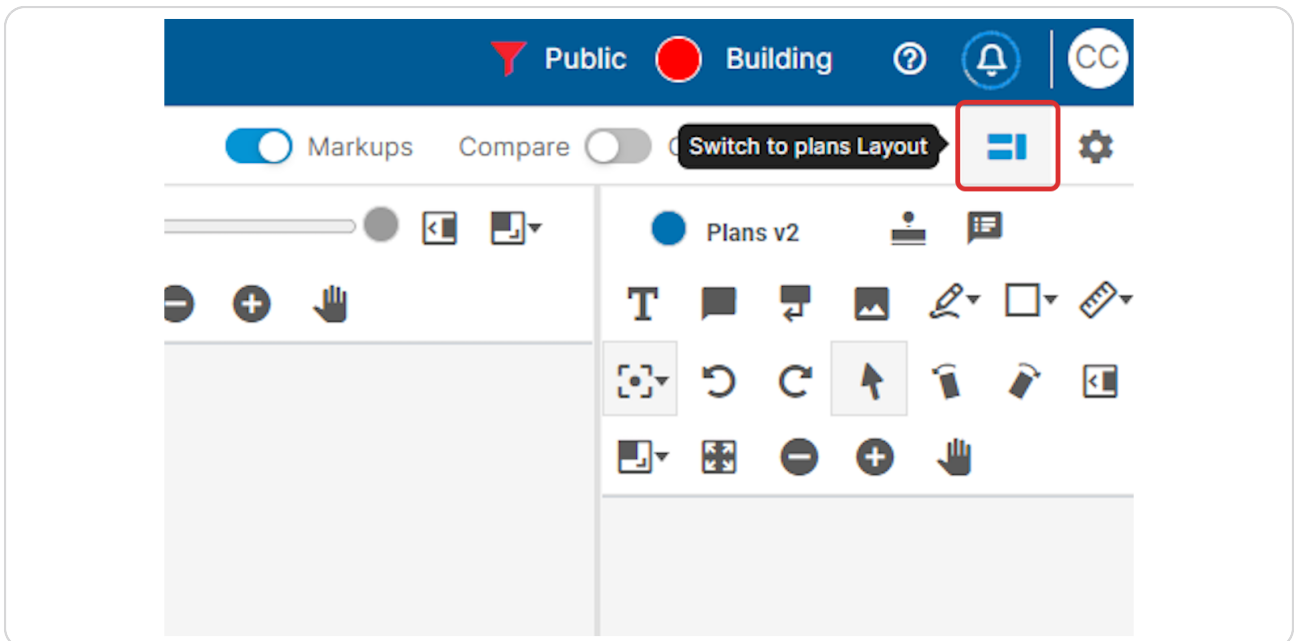

Compare Mode: Documents

Documents will open in the below layout in compare mode

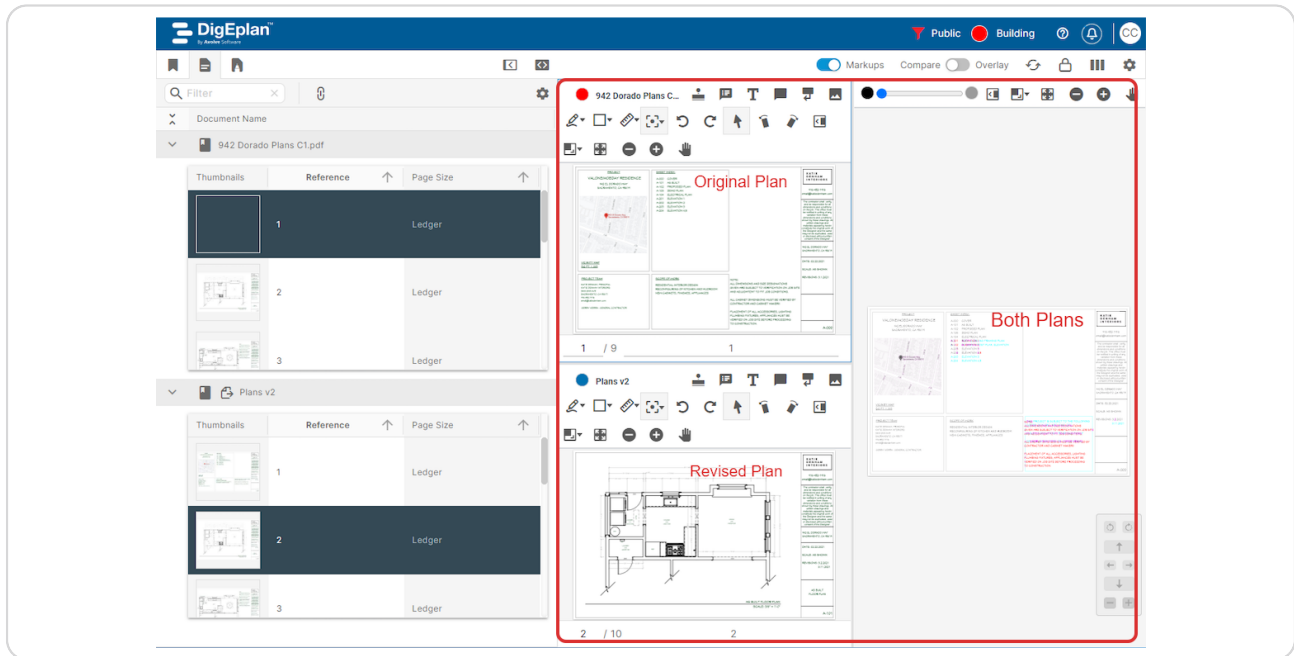

STEP 6

Optional: Click on Switch to plans Layout

STEP 7

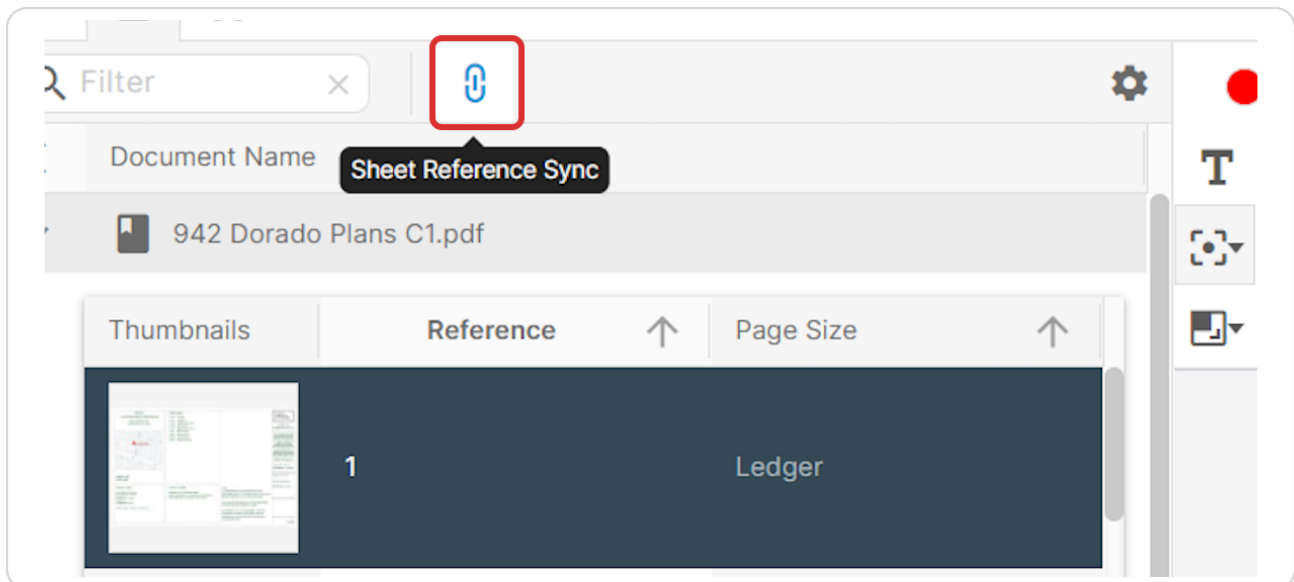

Compare Mode: Plans Layout

STEP 8

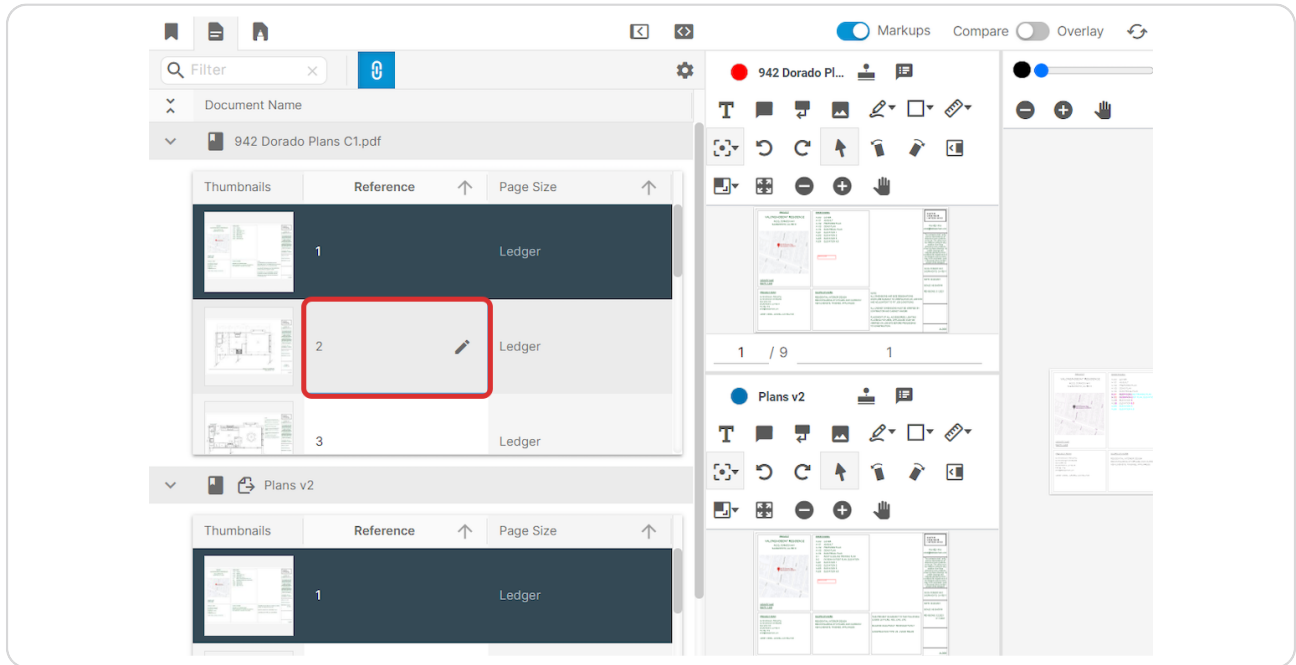

Click on Sheet Reference Sync

Make sure the same sheet is selected in both sets first. Then when sync is turned on clicking on a sheet in one set will pull up the same sheet in the revised set.

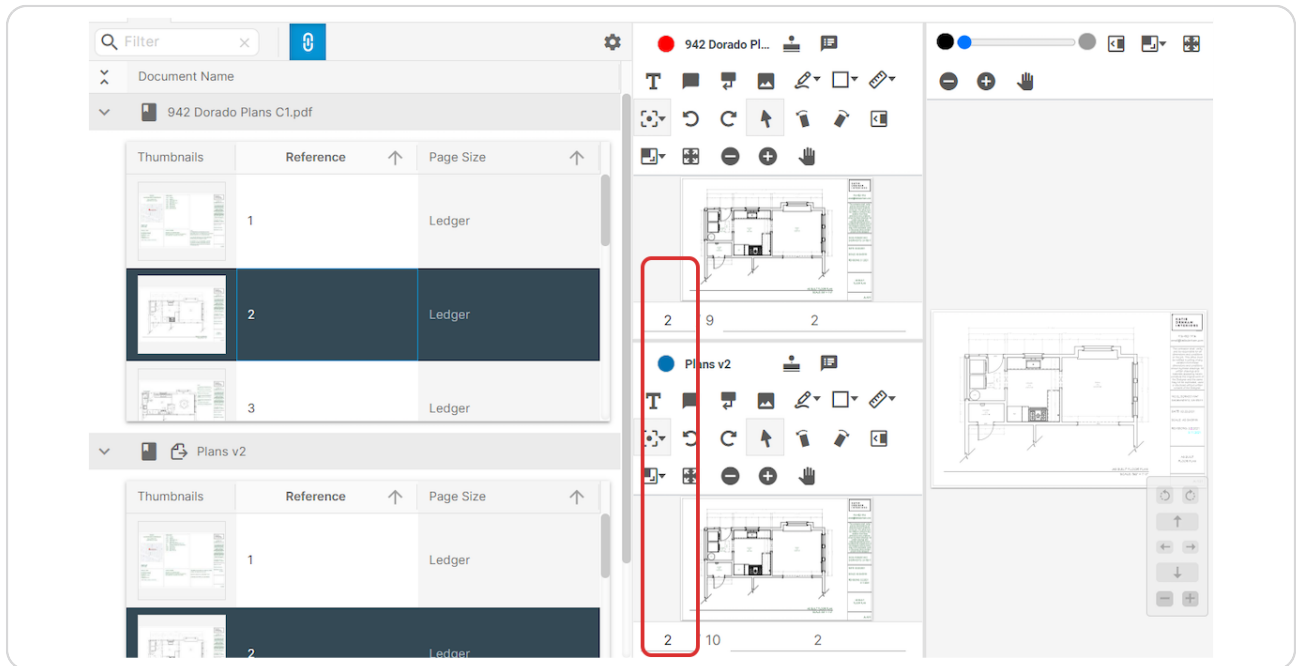

STEP 9

Example: Click on Sheet 2 in Plan Set 1

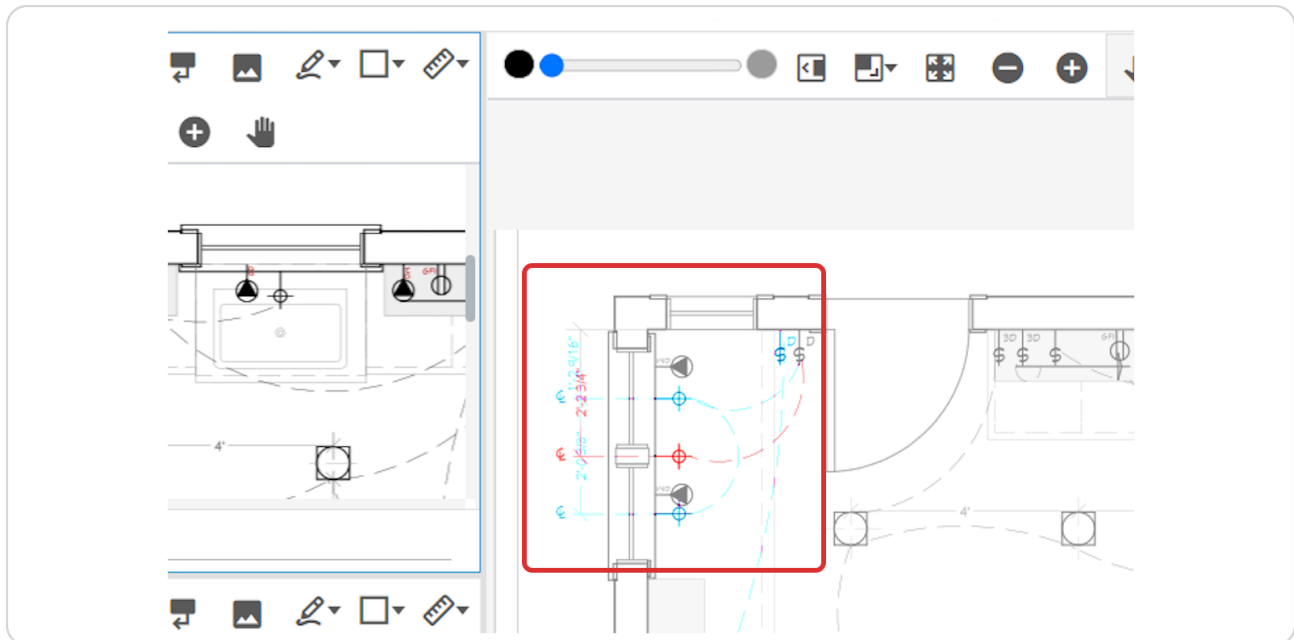

STEP 10

Example: Sheet 2 will also automatically be selected

STEP 11

Example: Here you can see details that differed between sets

STEP 12

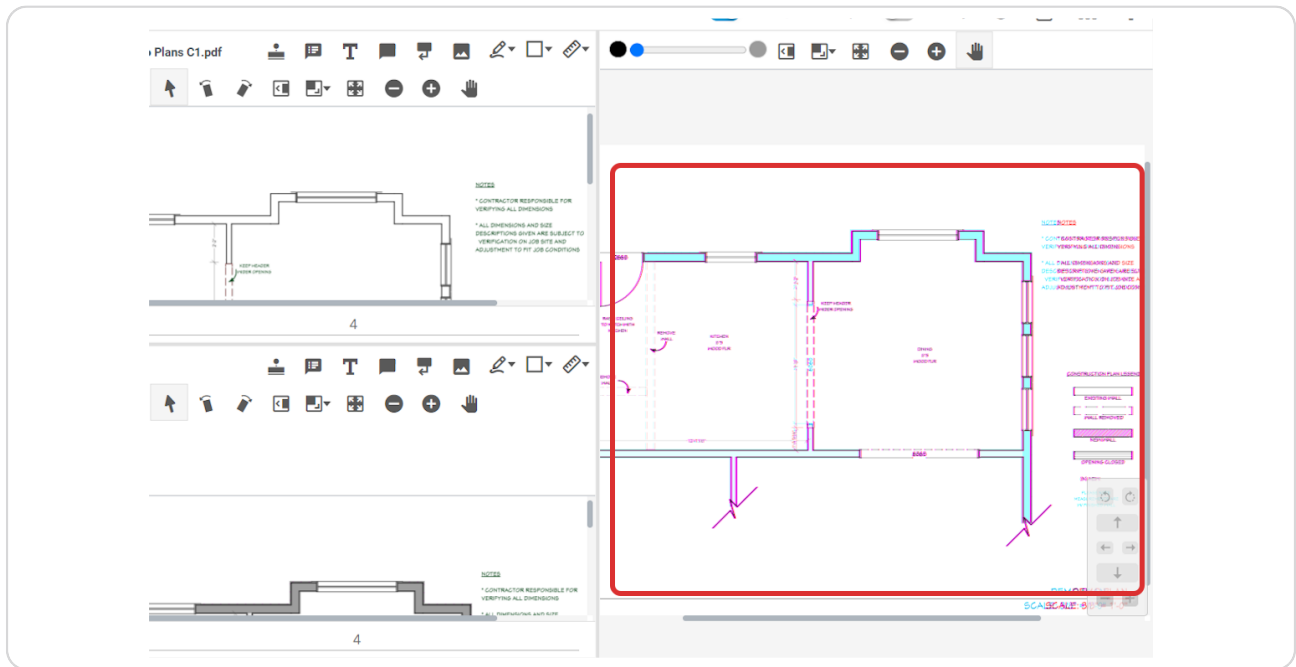

Nudge Tool: When details don't line up

Sometimes the details on the plans have shifted. The nudge tool at the bottom right allows you to shift the plans until they line up.

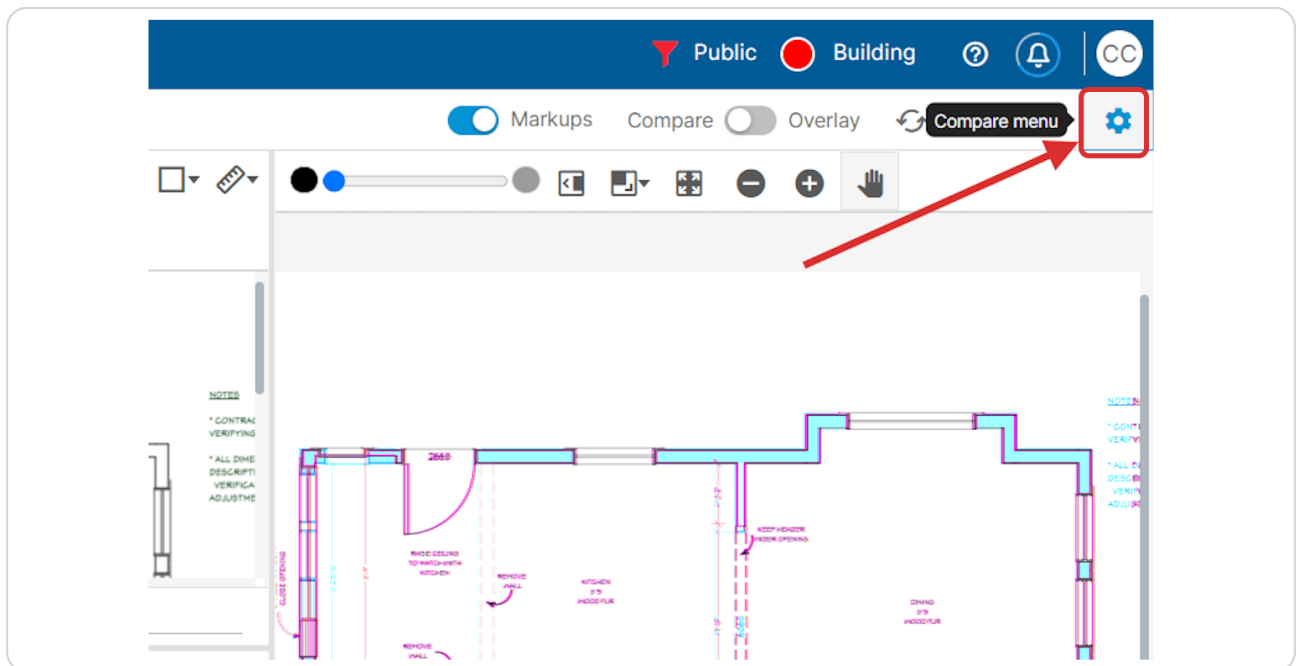

STEP 13

Nudged Plans

STEP 14

Additional Compare Options: Click on Compare Menu wheel

STEP 15

Compare Menu Options: Different views, Change File Colors, Align Plans by Points, Change Opacity of Overlay, & Download Overlay
